- Water Bottle Refilling Stations: Reserve Request
 - Josh Rosenbaum
 - Requesting \$9,832.59 for one water refill station on corner of McAlister and Freret
 - Maintenance would be taken care of. No added cost for insurance (deductible covers it)
 - Temperature of water would be cool (underground), but not refrigerated (expensive)
 - Company said this would be unnecessary
 - Sharp Hall got one on Monday 3/28/16
 - No savings unless we buy roughly 500
 - Tulane already partners with this company for water fountains
 - This is the best model for the price
 - This model is Tulane green
 - Emory, Vanderbilt, and Rice already have these
 - Voting to fund in full 9-0-0
