

THEM, Green Envy, TULA (and other acapella groups)

Reserve Request: \$3440

- Includes Soundboard, 2 Speakers with Subwoofer, 1 Monitor, 16 Wireless Mics
- Other options with lower prices:
 - 3140 with 16 Wired Mics
 - 1735 with 8 Wireless Mics and lower quality soundboard/speakers
 - 1585 with 8 Wired Mics
 - 1130 with 4 Wireless Mics, even lower quality soundboard, no monitor
 - 925 with 4 Wired Mics

Request Details:

- Have been trying to get consistent equipment for a long time
- Would allow for better performance in on and off campus venues with poor acoustics
- Need practice with equipment to increase professionalism in performance, help acapella become a better program on campus
- Investment for the future: no more renting, out of pocket spending
- Will store equipment in the SOC, plan out sharing equipment, communicate and schedule concerts at different times
- Will take care of equipment, be accountable over the weekend

Itemized Details:

- Wireless mics would be more feasible, since wired mics have cords that need regular replacements
- 2 Speakers needed, since 1 distorts the sound of 15 voices, subwoofer provides clarity
- Monitor would be a speaker facing the singers to help them hear each other better

Debate Details:

- Musicians respect their equipment, so it should last a long time
- 5 Organizations asking for 3500 is really not that much
- Huge sound quality disparity from Option 1 to 2
- Option 1 also provides better quality equipment that will last longer

Propose Funding Option 1 with Wireless Mics, \$3440, 16-0-1
