

GSAC: Reserve Request

Request: 7681

Presentation Details:

- Mosaic Lounge, in the historic side of Warren. “Hub for queer life on campus”
- Used for a lot of queer events on campus, as a meeting space for GSAC clubs
- Great for the community to have their own space
- A lot of issues caused by piping coming from the ceiling, water dripping, mold
- Will be fixing pipes while maintaining headspace, to cover up the leaks and solve some of the structural issues of the space
- Hoping to keep the space open so clubs can meet after the O closes, offer a safety net so no one has to worry about flooding
- GRL, FAST, QSA, GES
- QSA and GES use consistently on a weekly/biweekly basis, GRL uses it as well, leaders meet to have general conversations
- Housing donated the space, so they no longer consider it something to worry about; will be keeping HRL and Tim Lempfert in the loop going forward
- Tap in door, limited to E-board of organizations (due to previous issues with inappropriate use of the space)
- Currently, this is all that they expect to be asking for

Debate Details:

- Funding in Full?
- It’s dangerous if we don’t fund it; it helps a whole bunch of organizations
- Is housing going to be changing the structure of Warren in the future? Is it going to get torn down?
 - Probably not, because it’s in the historic part of the building
 - Warren isn’t in the campus notes for changes

Funded in Full; 14-0-0
